

IMPREGNATOR SEALER - STONE, TILE & GROUT

Is a water based product designed to give protection against water and oil based stains on grouted surfaces. May be used on ceramic tile, terrazzo, and concrete floors.

DIRECTIONS:

- Clean grout/floor and allow to dry for 6 to 12 hours to ensure a thorough dry (grout should be one consistent color).
- Apply ES 99 Impregnator Sealer with a finish mop if applying to the total surface. If desiring to only seal the grout, use a moss squeegee or sprayer to direct product to the grout and wipe excess material off floor with a clean, dry microfiber mop.
- Let sit & penetrate for 2 to 6 hours.
- Apply a second coat.
- If possible, allow to dry for 24 hours before traffic. Maximum protection is achieved after 24 hours.
- For daily cleaning, use ES 84 Neutral Floor Cleaner.

CAUTION:

- **Protect all adjoining surfaces and all other surfaces in which you do not want to have ES 99 come in contact with and all non-masonry surfaces.**
- **This product does not protect floors against sub floor humidity.**
- **Keep From Freezing**
