Eight Enviro-Solutions Products *Re-Certified* Meeting Green Seal's New GS 37-4th Edition

Largest Number of Products and SKUs

Certified in the Industry

Peterborough, ON – September 8, 2009 - GreenSeal®, one of North America's largest Green certification organizations, today notified Enviro-Solutions that eight of the manufacturer's cleaning products have met the organization's new Green criteria: Green Certified GS 37-4th Edition.

Enviro-Solutions, is a leading manufacturer of cleaning products and has been manufacturing only environmentally responsible products for more than 15 years.

According to Mike Sawchuk, general manager and vice president of Enviro-Solutions, the company also now has greatest number of products and SKUs* certified Green, “demonstrating our continued leadership in developing ‘proven’ Green cleaning products.”

Close to 40 of the company’s products, which range from floor and carpet cleaning products, all-purpose cleaners, heavy-duty degreasers to hand soaps and other products, are Green certified by either Green Seal or EcoLogo™, another leading certification organization.

According to Sawchuk, the newly re-certified products (in 17 SKUs) are:

- ES 51-CS Washroom Cleaner
- ES 56-CS Mild Acid Washroom Cleaner
- ES 70-CS General Purpose Cleaner
- ES 71-CS Super H2O2 Cleaner
- ES 75-CS Heavy Duty Degreaser
- ES 77 NFP -CS Glass Cleaner
- ES 84-CS Neutral Floor Cleaner
- ES 87-4 Extraction Carpet Cleaner

“We are only the second company with cleaning products re-certified by Green Seal and one of only [about]15 companies to have met the new GreenSeal GS 37-4th Edition criteria,” says Sawchuk. “Our goal is for all of our products to be ‘proven Green.’”

Sawchuk adds that his company's new E-Learning Program, which will be introduced at the upcoming ISSA/INTERCLEAN® tradeshow, includes training modules that discuss the certification process and what it entails.

“We view [product certification] as a serious accomplishment,” adds Sawchuk. “Green certification by an independent, third-party organization adds value to a company and its products and validation for all the work and engineering put into developing these products.”
