

## IMPORTANT CHOICES

It's no secret that today's consumer is concerned about and conscious of how we treat the environment. And they're making important, informed decisions as a result - including which cleaning products to use in the spaces in which they, their employees and their customers work, live and play.

### AND IF IT'S IMPORTANT TO THEM, IT'S IMPORTANT TO YOU

Lately, it seems that many traditional cleaning chemical manufacturers have begun promoting their own line of Green chemicals to try and satisfy this growing customer demand. But offering just products is the bare minimum. Like the customers that you service, you too have important decisions to make when it comes to selecting a Green chemical partner.

To be truly successful you need more than certified Green cleaning chemicals to complement your traditional line. You need a manufacturer that can provide a variety of options to choose from in order to provide better solutions to your customers' growing health and environmental concerns.

### AT ENVIRO-SOLUTIONS, THAT'S EXACTLY WHAT YOU GET. CHOICES.

At Enviro-Solutions, Green is all we do! Green is all we have ever done for close to 15 years. We are specialists! We work with distributors and major end-use customers just like you - offering more of the ways to make Green not only work, but be rewarding and profitable for you as well.

#### We understand that you need:

- Competitively priced products that work as well as, or better than, traditional products
- A manufacturer partner that offers training, sales support, and the guidance needed to help shorten your learning curve - putting you at the forefront of this growing industry
- Confidence that your Green offering is stronger than your competitors' and
- An extensive line of Environment Choice Program or Green Seal® certified products

Choose Wisely...Choose Enviro-Solutions
