

Good Clean Products

MAKE CLEANING EASIER

Use Enviro-Solutions **One-Two-Punch** to knock out soils and germs.

TWO PRODUCTS...

ES71 Super H₂O₂ G.P. Cleaner, Degreaser, Deodorizer

- Green Seal Certified
- CRI Certified
- Variety of dilutions
- Use for wide variety of surfaces and conditions

ES256 Neutral Disinfectant

- EPA registered hospital use disinfectant
- Very broad spectrum kill claims
- High Dilution - Cost Effective
- Use after pre-cleaning with ES71

ES-SP4362

...ONE DISPENSER

- More versatile than competitors' dispensers
- Reduces ready-to-use costs substantially
- Allows for mop-bucket and spray-bottle filling

...EXCELLENT RESULTS

ISO 9001

Choose Wisely ... Choose Enviro-Solutions

Good Clean Products

In a perfect world, one dilution of a single chemical would clean everything and sanitize while you're cleaning... unfortunately, it isn't a perfect world.

The effectiveness of sanitizers and disinfectants decreases with more soil and germs on any given surface. So, in order for cleaning & sanitizing to be done right, soils, grime and dirt should be removed first.

The over-use of disinfectants and sanitizers has been connected with both the development of "Superbugs", and the increase of asthma and other breathing difficulties. Disinfectants should be used carefully, sparingly and thoughtfully.

Hence, we believe there is a simple rule, "**Clean First, Sanitize Second**".

| | | |
|------------|-----------------|--|
| 71 | LIGHT | Hand Cleaning: Glass, mirrors, tabletops, counters, walls and any other non-porous surface. Use in conjunction with microfiber cloths for best soil and germ removal. Floors: Damp mopping and cleaning with an automatic scrubber. |
| 71 | MEDIUM | Hand Cleaning: For tougher jobs such as restroom cleaning and carpet spotting (CRI approved). Use in conjunction with microfiber cloths for best soil and germ removal. Floors: Washrooms and locker areas. |
| 71 | HEAVY | Hand Cleaning: For maximum deodorizing while you clean areas such as grout cleaning in bathrooms and locker areas. Use in conjunction with microfiber cloths for best soil and germ removal. Floors: No bucket fill applications at this concentration. |
| 256 | SANITIZE | Hand Cleaning: Door handles and push bars, stair rails, water fountains and all other often touched surfaces. Mist with enough product to stay damp for 60 seconds. Floors: Damp Mopping |

OURS VERSUS THEIRS...IT'S SIMPLE

- Our ES71 contains higher percentage of active ingredients
- Our ES256 kills more germs at less cost
- Our system promotes easy and proper cleaning
- Our dispenser provides far greater versatility
